Most DHS offices have reopened but have a maximum of 10 people in the lobby. If you need help with applying online, call IDHS *Help is Here* toll-free line at 1-833-2-FIND-HELP and look at their webpage at www.dhs.state.il.us/page.aspx?item=123529

I filed my application online but DHS wants me to send them documents. How do I do that?

Depending on which program you apply for, DHS may still need you to send them some documentation. You can fax your documents to DHS. You can also scan and upload your documents to ABE. Finally, you can mail or drop off your documents to a local office. If you mail documents to DHS, try to make a copy of the documents for your records.

I receive SNAP but I can't complete the work requirements. Will I lose my SNAP?

No. During the Covid emergency, DHS has suspended the SNAP work requirements that people without dependents had to do. The SNAP benefits you receive while we are under the public health emergency will not count towards your limit.

I have to work to receive my TANF cash benefits but I can't work right now because I don't have any child care. Will I lose my TANF?

No. If you are not able to do the work and training requirements because of the COVID-19 crisis, you can request Good Cause. You may be asked to provide proof to show the reason for your good cause.

I heard that I might get extra SNAP benefits this month. Is that true?

Yes. During the Covid-19 emergency, DHS is providing emergency supplemental SNAP benefits up to the maximum amount of SNAP for the number of people in the household. If you already receive the maximum amount, you will not be eligible for the supplement.
